Corporate Social Responsibility

- ✓ Every Company should have a **Larger goal** which encompasses more than just the Profits for the Company.
- ✓ The Company should encourage this culture in the Company with every employee.
- ✓ It is not important how much money we spend on this responsibility.
- ✓ It is very important to realize the 'Joy of Giving' and make this as the DNA of the company and the employees.
- ✓ The immediate goals of the Company will be realized as a by product !
